Wyoming's 2026 Legislative Election: One Party Flip, 38 Open Seats

By Miles Ridge. RESEARCH article, APPROVED v1.0, November 9, 2026. Companion to A002 v1.0 2026 Legislature Election Results.docx. Approved for publication on the public wyovote.com website; text unchanged from v0.1.

1. Summary and type rationale

Type: Research (A_CATEGORY R). The piece tests whether the 2026 general election changed the House and Senate by party, turnout and turnover, using complete, non-cherry-picked data: every one of the 79 legislative races on the ballot, the same measures for 2018, 2020, 2022 and 2024, and no choice of districts. It reports counts and shares only. It does not argue a view and does not measure how members vote.

- **Main finding 1:** one seat changes party (House District 11, Democrat Britney Tennant by 54 votes, unofficial). Republicans gained no seat. House 55 R / 7 D and Senate 29 R / 2 D for 2027 if the count stands.
- **Main finding 2:** 191,688 ballots (unofficial), 68.2% of 281,219 registered voters. Ballots fell 3.3% from 2022 while the voter roll fell 5.5%.
- **Main finding 3:** 38 of 79 seats had no incumbent on the general ballot (House 30, Senate 8). All 41 incumbents who reached the ballot won.
- **Main finding 4:** in races with both a Republican and a Democrat, the Democratic share was 36.1% (2026), 35.8% (2024) and 40.0% (2022). In matched districts it rose about 2.5 to 3 points.

Unofficial: every 2026 general figure comes from the Secretary of State unofficial summaries last updated Nov 3, 2026 at 11:54 to 11:56 PM MST. The State Canvassing Board certifies on Nov 10, 2026, 10:00 AM MST.

2. Data inventory and MTR-Q001 status

MTR-Q001 (sent Nov 2, 2026) asked for turnout history, full race results, turnover, winner profiles and the chamber shift. No separate written reply to Q001 was found in the MTR workspace. The requested data exists as MTR Research reports 903 to 907 in the shared report tree (dated Nov 2 to Nov 6,

2026). Three are current and reviewed. Two are drafts.

Report	Version and status	Used	What it supplies
903 Turnout History	v1.2 current	Yes	Registered, ballots and turnout, state and 23 counties: primaries 2018 to 2026, generals 2018 to 2024. 2026 general column empty (not certified).
904 Race Results	v2.1 current	Yes	Every House and Senate race 2018 to 2026 primary, 2018 to 2024 general (SOS official files); statewide races 2022 and 2024; 2026 general section PRELIMINARY (read by OCR from SOS unofficial PDFs).
905 Seat Turnover	v1.2 current	Yes	2026 departures before the general; 2024 full cycle; 2022 person-based turnover. 2026 general losses and party flips are placeholders until certification.
906 Winner Profiles	v0.3 DRAFT	No (internal)	Scaffold only: rank-based profiles with an empty provisional column. Draft, not for publication.
907 Chamber Shift Comparison	v0.3 DRAFT	No (internal)	Departed versus returning members by chamber rank, pre-general. Marked not for publication. Withheld from the article.

Q001 item	Status
Turnout history	Done for primaries and for generals through 2024 (903 v1.2). 2026 general computed here from SOS unofficial totals and the SOS Election Day registration report.
Full race results	Done (904 v2.1). 2026 general independently re-read from the SOS PDFs, see section 3.
Turnover	Done through the 2026 primary (905 v1.2). General-election incumbent results added here from SOS unofficial returns.
Winner profiles	Gap. Draft scaffold only (906 v0.3 DRAFT). Not used.
Chamber shift	Gap for publication. Rank-based comparison exists only as an internal draft (907 v0.3 DRAFT); a reviewed version and certified winners are needed. Not used.

No page on the public site www.wyovote.com was cited. Its published pages are legislator rating reports and one reposted story from another publication, and none of them covers 2026 legislative election results.

3. Verification

- **Independent re-read of the SOS PDFs.** Downloaded all four SOS unofficial 2026 general summaries (House 62 pages, Senate 17, Statewide 7, Total Ballots Cast 1; file dates Nov 3, 2026, 11:54 to 11:59 PM MST). The PDFs have broken text layers, so every page was read by OCR. All 114 legislative candidate vote totals matched 904 v2.1 section 7 exactly (0 differences). Statewide office totals were read and match 904.

- **Spot checks by eye.** House District 11 page and the Total Ballots Cast page were viewed as images. McIntosh 1,026, Tennant 1,080, Shollenberger 152; total ballots 191,688; counties reporting 23 of 23.
- **Sums.** The 23 county ballot counts add to 191,688 (SOS total). The 23 county registration counts add to 281,219 (SOS total).
- **Registration basis.** SOS "General Election Day" reports are the close-of-business-day-before count (SOS notes this on its turnout page). Check: the 2024 Election Day total, 256,251, equals the 2024 general registered figure in the SOS turnout table. So 281,219 is on the same basis as 2018 to 2024.
- **2027 roster.** wyoleg.gov lists 55 R and 7 D House members (Tennant in District 11) and 29 R and 2 D Senators as of Nov 9, 2026. Only name, party and district were kept.
- **Seat counts by party** come from the 2018 to 2024 SOS official results in 904 v2.1. 2026 winners are the first-place candidate in each race. House District 11 is leading, not certified.
- **Incumbent results.** The 41 incumbent nominees in 905 v1.2 were matched to the first-place candidate in each 2026 race: 41 of 41 won.
- **Freedom Caucus names.** WyoFile (Aug 19, 2026) lists 13 House incumbents the caucus lost in the primary. The same 13 appear as "lost primary" in 905 v1.2 (Johnson H08, Heiner H18, Webb H19, Webber H24, Bear H31, Locke H35, Lien H38, Brown H41, Lucas H43, Andrew H46, McCann H48, Wharff H49, Brady H60).

4. Results tables

Table 1. Seats won in each general election, by party

Year	House seats	House R	House D	House other	Senate seats up	Senate R	Senate D
2018	60	50	9	1	15	13	2
2020	60	51	7	2	15	15	0
2022	62	57	5	0	16	14	2
2024	62	56	6	0	15	15	0
2026 (unofficial)	62	55	7	0	17	15	2

2018 and 2020 used the earlier map (60 House seats). The 2022 map (HB0100) added two House seats and one Senate seat. 2018 and 2020 "other" are independent and Libertarian winners. 2026 House D includes District 11 (leading by 54 votes). Source: 904 v2.1 (SOS official results) and SOS unofficial 2026 summaries.

Table 2. Turnout, generals and primaries

Election	Registered	Ballots cast	Of registered %	Of voting-age pop. %
2014 general	264,930	171,153	64.6	38.5
2018 general	276,696	205,275	74.2	46.4
2020 general	268,837	278,503	103.6	62.6
2022 general	297,639	198,198	66.6	44.4
2024 general	256,251	271,123	105.8	59.7
2026 general (unofficial)	281,219	191,688	68.2	41.5 (MTR calculation, 461,419 est. VAP)
2018 primary	266,464	139,809	52.5	31.6
2020 primary	230,230	140,042	60.8	31.5
2022 primary	287,014	182,232	63.5	40.8
2024 primary	226,062	122,718	54.3	27.0
2026 primary	273,705	150,385	54.9	32.6

Registered = registered at close of business the day before the election; election-day registrations are not in it, so presidential-year generals pass 100%. Voting-age population is the SOS estimate. 2026 general: ballots from the SOS Total Ballots Cast summary, registered from the SOS Election Day report. Sources: 903 v1.2; SOS Voter Registration and Voter Turnout Statistics (revised 08/2026).

Statewide	205,275	198,198	191,688	-3.3	66.6	68.2

Ballots fell from 2022 in 19 of 23 counties and rose in 4 (Albany, Laramie, Sublette, Teton). Turnout share rose in 8 counties. 2026 turnout = SOS unofficial ballots divided by SOS Election Day registrations (11/3/2026). 2018 and 2022 from 903 v1.2.

Table 4. Contested legislative races, general elections

Year	Races	One candidate	Contested	One-candidate share %
2018	75	42	33	56
2020	75	46	29	61
2022	78	39	39	50
2024	77	59	18	77
2026 (unofficial)	79	47	32	59

Counts are races on the general ballot (House plus Senate seats up). A race counts as contested when two or more named candidates appear.

Table 5. Seat departures before the general election

Cycle and chamber	Seats	Not up	Incumbent nominated	Lost primary	Retired or did not file	Sought other office	Lost general
2024 House	62	0	37	14	8	3	1
2024 Senate	31	16	10	0	5	0	0
2026 House	62	0	32	13	7	10	0 (unofficial)
2026 Senate	31	14	9	1	5	2	0 (unofficial)

Source: 905 v1.2 section 1, with 2026 general results added from the SOS unofficial summaries. 2026 open seats without an incumbent on the general ballot: 38 (House 30, Senate 8). 2022 is counted by person because of the map change: of 90 members of the 66th Legislature, 44 returned to the same chamber, 29 left, 15 were holdovers and 2 moved chamber (905 v1.2 section

6).

Table 6. Democratic share where a Republican and a Democrat both ran

Measure	2022	2024	2026
All races with both parties	40.0 (25 races)	35.8 (17 races)	36.1 (27 races)
Same districts as 2026 (2024 set: 10)	-	40.9 (10 races)	43.9 (10 races)
Same districts as 2026 (2022 set: 14)	39.8 (14 races)	-	42.3 (14 races)

Two-party share = Democratic votes divided by Democratic plus Republican votes in those races. Races with one candidate, or without both parties, are left out. This selects the contested seats, so it is not a statewide vote share. The 2022 to 2026 maps are the same. Detail by race follows.

Winner = first place in the SOS unofficial summary. House District 11 (Tennant) leads by 54 votes. Names as printed by the SOS; spelling normalized where the OCR misread a letter. Write-ins are not listed.

5. Claims considered, limited or dropped

- **"The Legislature moved left."** Not stated. Seat totals moved one House seat. The matched-district Democratic share rose about 2.5 to 3 points. The governor race moved the other way for Democrats (16.8% to 14.7%). No single measure supports a direction, so the article reports each.
- **Factional shift inside the Republican caucus.** Reported only as WyoFile attribution (13 incumbents lost; about 10 reliable caucus votes projected). No MTR ranking or draft report is used in the article.
- **Winner profiles, new-member placement.** Dropped: only an internal draft scaffold exists.
- **County-level partisan shift.** Not computed this version (see gaps). A Freedom Caucus statement that all 23 counties shifted left (Cheyenne Gazette) was not repeated; it was not tested.
- **Automatic recount.** Not stated in the article. The 54-vote gap is 5.0% of Tennant's 1,080 votes. A Rocket Miner explainer (wyomingnews.com) gives a 1% automatic-recount rule, so none is expected, but the statute was not checked.
- **Other outlets** (Cowboy State Daily, Cap City News, Wyoming Public Media) report the same House District 11 result. None is cited; the SOS and wyoleg.gov are the primary sources.
- **2018 and 2020 incumbent departures.** Not available (no earlier member rosters in the data). Only 2022 (by person), 2024 and 2026 are shown.

6. Data gaps

- **Certified results.** Everything for 2026 general is unofficial until the Nov 10, 2026 canvass (10:00 AM MST). Update after certification, especially House District 11.
- **Official turnout.** The SOS turnout table (revised 08/2026) has no 2026 general row yet. The 68.2% and 41.5% are MTR Research calculations from SOS unofficial ballots and the SOS Election Day registration count.
- **MTR-Q001 items.** Winner profiles (906) and chamber shift (907) exist only as v0.3 DRAFT. Needed from the report owner: reviewed versions with certified winners, and a method to place new members.
- **Mid-term appointments.** "Before the election" seat counts are the seats as elected in 2022 and 2024 (SOS official). Appointments to fill vacancies are not tracked.

- **County partisan comparison** 2022 to 2026 (statewide offices by county) is not built.
- **Earlier years.** Incumbent departures for 2018 and 2020; 2016 and earlier legislative results are not in the data.
- **Race ethnicity, age, party registration of winners and other winner characteristics** are outside this version.

7. Photograph

- **Photo:** The Wyoming State Capitol, Cheyenne, front view with dome. Carol M. Highsmith, between 1980 and 2006. Library of Congress Prints and Photographs Division, LC-DIG-highsm-16996 (LCCN 2011635189).
- **License:** public domain. The LOC item page lists "Rights Advisory: No known restrictions on publication." The LOC Highsmith Archive page states she dedicated her rights to the American people for copyright-free access.
- **Item page:** https://www.loc.gov/pictures/item/2011635189/ (file https://tile.loc.gov/storage-services/service/pnp/highsm/16900/16996v.jpg, 781 by 1024 px).
- **Placement:** portrait photo shown 2.6 in wide, 3.4 in tall, so title, deck, byline, photo, caption and the opening paragraph stay on page 1 of the Word file (checked by render). A005 and A006 use a different Highsmith photo of the same building.

8. Publishing checks

Body word count from tools/check.py (credit markers stripped). ORR send-band rules are applied as a house standard even though this piece goes to the public site.

Check	Result	Measured
WORDS_800_1500	PASS	804
SENT_LT_20	PASS	19
PARA_3_4	PASS	22 paragraphs; 0 over 4; 6 short (allowed)
KW_BODY_5_6	PASS	5
LINKS_3	PASS	4

Keyword set in DB: **election**. Hard-rule scan of the Word file passed: no banned words, no owner name, no internal system names, no private data. The wyoleg.gov roster pull kept only name, party and district.
